

SURESMILE® Refinement Period

Patient Agreement

Patient Name: _____

What is a Refinement Period?

Final clear aligner therapy depends on several factors...

- Average wear time of aligners during treatment
- Use of chewies/VPro for full seating of trays
- Integrity of attachments and adequate IPR completed
- Hygiene throughout treatment
- Age & maturity of bone
- A combination of the above and other unforeseen circumstances

In the instance that additional, realistic movement is desired by the patient, we can offer a "Refinement Period" which allows the patient to get additional aligners (number of aligners vary depending on movement desired) from brush365. If the patient completed Comprehensive Treatment, one refinement is included at no charge. If the patient completed Limited Treatment, there is a fee of \$1,000. Additional diagnostic records and scans may be needed and are included in the Refinement Period. Please note that in order to qualify for the free refinement period, the refinement must be initiated BEFORE any final teeth smoothing, attachment removal, and/or retainers are fabricated. If any steps are taken to finalize treatment, as aforementioned, the treatment is considered completed and a Refinement Period will have a fee if it requested later on. Refinement periods are ONLY for patients who begin their INITIAL clear aligner therapy at brush365. If you have done Clear Aligner Therapy through another company and would like to switch to brush365, you will have to re-initiate treatment through either a Comprehensive or Limited Case, depending on what your doctor recommends.

What's included?

A Refinement Period includes the diagnostic records needed for the new aligners & the aligners themselves. All aligners will be delivered to you at your initial Refinement Period appointment. The following do incur a cost:

- Mid-treatment check-in appointments for any reason are \$50/appointment
- Initial attachment placement and removal is included. However, to replace attachments there is a fee of \$50/appointment, in addition to the fee for the exam (see previous bullet point)
- Replacement of lost, broken, or ill-fitting aligners are \$30/aligner
- Only one appointment for teeth-smoothing is included for Clear Aligner Therapy. If the edges of your teeth were smoothed prior to your Refinement Period and you would like more smoothing to be completed, there is a charge of \$75/tooth. We recommend waiting until the absolute end of your clear aligner treatment before requesting teeth smoothing.
- If retainers have already been made and you will need new ones at the end of your Refinement Period, there will be an additional, full price charge.
- If, at the completion of the free refinement period, additional movement is desired, a subsequent refinement period can be initiated at a fee of \$1,000.
